

## NATIONAL FORMULARY DRUG LIST

The Catamaran Drug List is a guide identifying preferred brand-name medicines within select therapeutic categories. The Drug List may not include all drugs covered by your prescription drug benefit. Generic medicines are available within many of the therapeutic categories listed, in addition to categories not listed, and should be considered as the first line of prescribing.

For benefit coverage or restrictions please check your benefit plan document(s). This listing is revised periodically as new drugs and new prescribing information becomes available. It is recommended that you bring this list of medications when you or a covered family member sees a physician or other healthcare provider.

### ANTI-INFECTIVES

#### ANTIFUNGALS

##### GENERIC

amphotericin b  
fluconazole
